

array

```
graph BT; A["array_t< T, ExtraFlags >"] --> B[array]
```

The diagram illustrates a relationship between two types. At the bottom is a gray rectangular box containing the text `array_t< T, ExtraFlags >`. A blue arrow points vertically upwards from the top center of this box to the bottom center of a white rectangular box above it. The white box contains the text `array`. This visualizes that `array_t< T, ExtraFlags >` is a base class or a more general type that specializes into the `array` type.

`array_t< T, ExtraFlags >`
